

# Cirrus Insight

## Company Overview

Cirrus Insight is a plugin for Gmail and Outlook (and mobile apps for iOS and Android) that automatically keeps Salesforce CRM up to date for sales teams. It intelligently syncs emails and appointments from Google for Work, Microsoft Office 365, and Microsoft Exchange to matching prospects and customers in Salesforce. Cirrus Insight also includes power tools for salespeople in Gmail and Outlook including email open tracking, follow up reminders, and mail merge templates.
